

ZVI SERIES-PO 2-1410

EAN 8422202214108

Injected polyurethane castors with stainless steel (AISI 304) components. Especially indicated to support high-loads up to 600 Kg.

It is used in: outdoor areas, food trolleys, canteens, dining rooms, restaurants, food industry, logistics for military missions material, packaging machines, conveyor belts, stainless steel constructions, light machinery for the construction, containers, roll containers, transport cages, poultry farms, chemical industry, bakery machines, food chains, fridges, freezer cabinets and freezers.

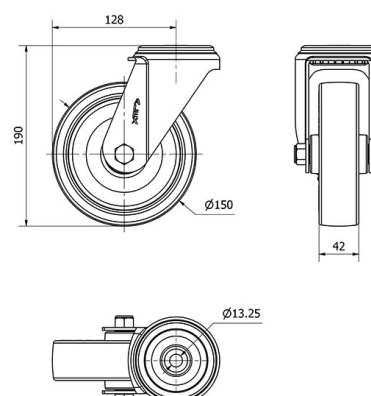

Suitable for mechanical engineering projects by draftsmen and project executors.

PO: elastic functioning. Noiseless. High floor protection. Long useful life. High resistance to oils and grease. Clean and undeformable.

Technical Data

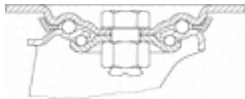

Housing Type	Swivel
Fitting Type	Bolt hole
Braking System	Without Brake
Material	Polyurethane
Hardness of tread	90-95° SHORE A
Bearing	Plain
Diameter (mm)	150
Width of tyre (mm)	42
Plate hole diameter (mm)	12
Offset (mm)	128
Overall height (mm)	190
Load	300
Unit Weight of the wheel (kg)	1.525
Volume (cm ³)	3196
